1 Introduction

We proudly introduce you our newly lounged web site “Kids gaming”. Through our web site we have given chance to worldwide game lovers to enjoy any game they wish. There are over billions of games available in our site. We have divided all those games into segments like Family, 18 +, Adventure etc... Through our website we have given the facility to our users to purchase or rent games online.

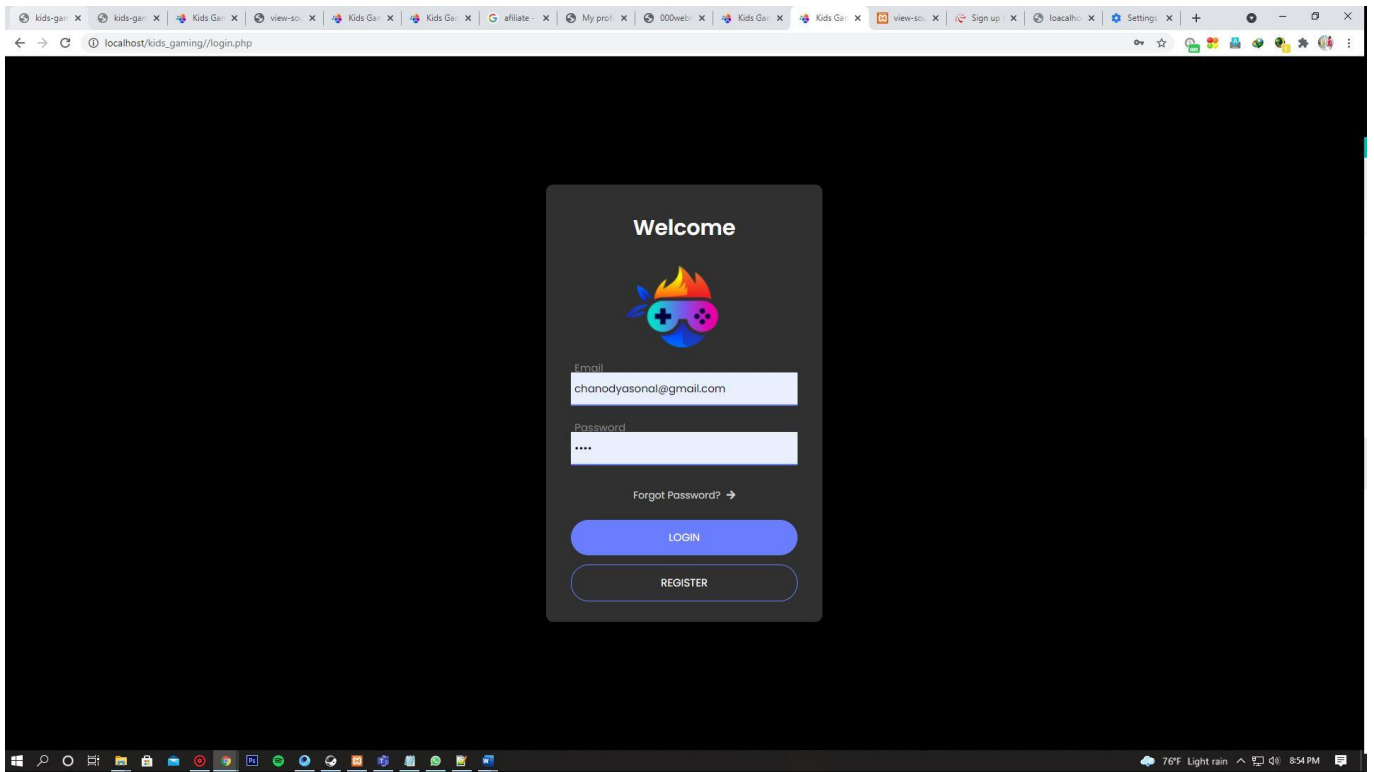

Concerning about old trend of going to arcades to play games may cause time waste and consume lots of money, not only that sometimes you may not be satisfied with the games available there. Thanks to our website “Kids gaming” we can bring up the customer satisfaction to sky high. Want to know how? We have made simple user interface so that a toddler can surf our site without any effort.

Due to pandemic situation people are stressed and suffering with loneliness waiting to hang out with friends. Not anymore... because we the “Kids gaming” allows our user to play multiplayer games where you can interact with your friends and families.

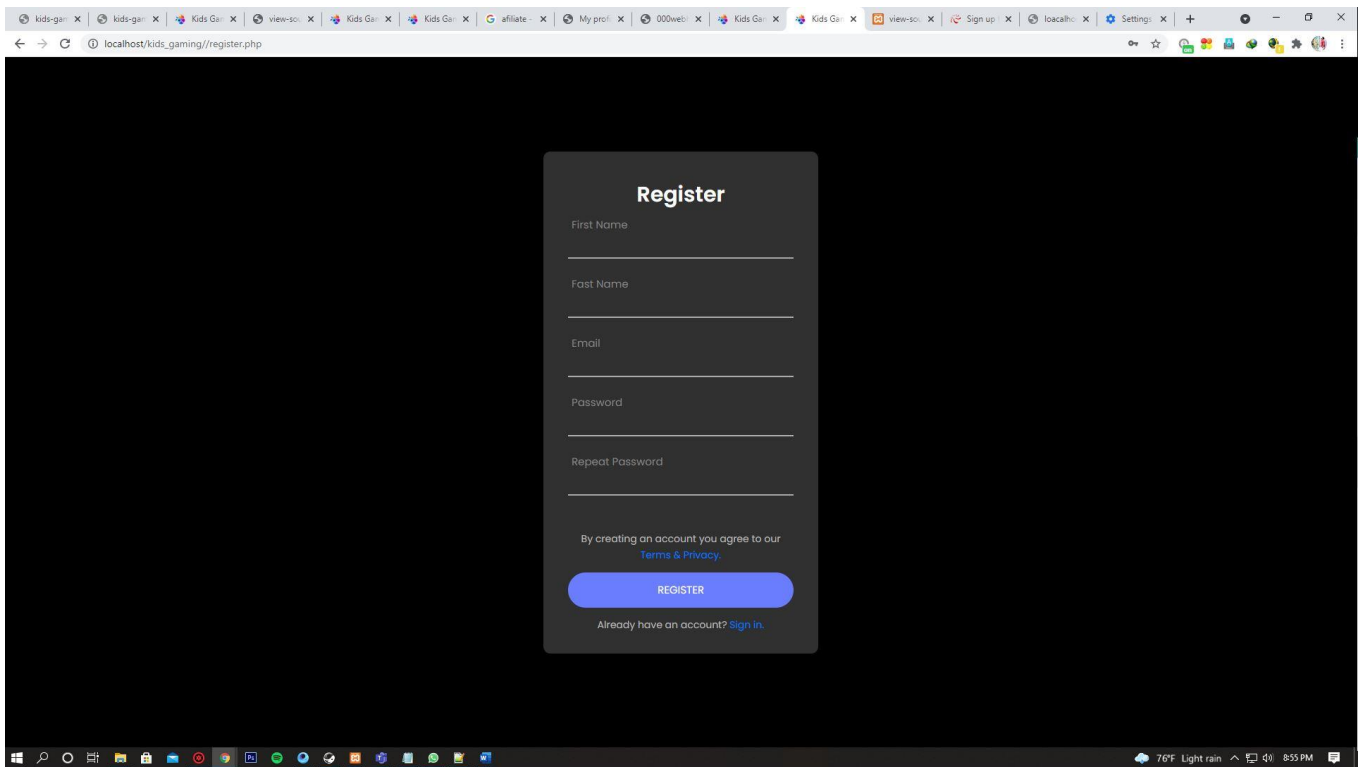

Talking about games, which comes to our mind is “waste of time”. We, the Kids gaming have been able to dominate that statement by adding Educational games to our site. There are variety of educational games available from kindergarten to higher education which facilitates you to study at home. Worrying about money? Don’t worry we have let every game related to education totally free.

As a way of giving back to the society we have chosen to employ domestic software developers to maintain our site. So that it helps to reduce unemployment. Our main goal is to bring happiness to our customers and expand our market share.
